Guide to Foreign Periodicals

January 1999

Preface

The Documentation and Publishing Center acquires a lot of different sources of information; i.e, books, documents, academic dissertations, scientific production of the Institute represented in the series of planning and development cases as well as the scientific memoranda and international organizations' publications and periodicals. Periodicals undoubtedly, play a great role to spread knowledge and the researchers depend basically on them for their researches because of their up to dateness and quickness in spreading knowledge that they need.

The directory contains Two Hundred and Eighty titles of foreign periodicals that the center has got since the beginning of the Sixties up till now. The center subscribes to 43 journals through Blackwell's selected by the INP scientific staff and their subscription is renewed annually. The other 234 journals are received on an exchange/gift basis.

Because of their importance, Egyptian National Scientific and Technical Information Network of the Academy of Scientific Research and Technology pays special attention to include our collection of our periodicals in its union list of periodicals in Egypt which will be issued in this month (January 1999).

Subject Treatment :

The periodicals were treated by deciding one or more subject headings for each title with the help of (Ulrich's) International Periodicals Directory which the center has got one copy stored on CD-ROM 1998.

This directory is supplied with subject headings and titles list as well. It is an updating of a previous one issued in 1977 in the INP series of external memoranda NO. (1207). The center will be grateful if we receive any suggestion to improve this service . This new directory is available on a diskett to whom it may concern to use in his personal computer.

Director,
Documentation and Publishing Center

Salem S. Zaid

Abbreviations

(A)	Annual
(Bi-M)	Bi-Monthly
(Ir)	Irrigular
(M)	Monthly
(Q)	Quarterly
